

POS Based Payment Systems

Merchants today rely on their point-of-sale systems to keep them in business. Customers want access to more methods of payments in more places, every day. As a merchant, you need a POS system that not only can withstand the daily use of your employees, but should be easy-to-use. You also need the latest technology and customer support behind the terminal to meet the demands of your business. Metro Merchant Services offers a wide range of POS hardware, software and programs to keep your sales up and operating expenses down.

- Accept All Forms of Payments – All major credit cards, debit cards, electronic checks, gift cards, loyalty cards, ATM transactions and more.
- Perfect For All Types of Businesses – Whether you are a retailer, service business, professional organization, sales organization or anyone who needs to accept payments, our solutions are tailored to your business.
- Value Added Hardware – We offer products from the leading suppliers such as VeriFone, Hypercom, Nurit and more. Terminals, printers, check readers, PIN Pads...everything you need to process payments, every day.
- The Latest Technology – Keeping your system operating with the most up-to-date software and security applications available keeps you in compliance with ever changing regulations and transaction volumes.
- Connectivity Options – Most equipment can now support more than just a phone line. Speed up transaction times with Broadband and DSL.
- Payments Received Quickly – Funds are automatically deposited into your merchant bank account within days.
- Superior Customer Service – We provide technical and account support to merchants seven days a week, as well as access to online documentation and user guides.

A Metro Merchant Services
Point-of-Sale Based
Payment System
is the perfect solution
for accepting all forms
of payments in
every environment where
credit cards, debit cards,
checks and more are present
at the point-of-sale.

POS Based Payment Systems

At Metro Merchant Services, we take the time to ensure that the payment processing system and services your business needs to grow is exactly what you get.

When it comes to determining a system for your business, there are many factors that determine the kind of hardware you will need, including: type of merchant account you want to establish (e.g., eCommerce, retail or direct market), the type of industry you're in, the number of transactions you have daily, the type of transactions you'll be processing, how many locations your business has, etc. Once we have all of this information, a Metro Merchant Services Representative will be better able to advise you on the type of equipment you'll need to be able to process payments.

If you already have a POS terminal, you may be able to use the equipment you already own. To find out, let us know what equipment you have now and we will determine if there is a solution that will work.

Customer Support

We know that our services are vital to your business operations. That's why we are dedicated to providing superior technical support. With Metro Merchant Services, the information you need to manage your transactions effectively is readily available.

Our customer support staff is available to help you with technical, billing and account questions.

Call us at 302-838-9100 or you can email us and we will respond to your inquiry within one business day.
